

Letter of Recommendation

To Whom It May Concern:

It is my pleasure to write this letter of recommendation for Cooper Trahan. During the summer of 2026, Cooper worked with our Summer Learning Camp program, supporting students and staff with technology needs across our district. Throughout his time with us, he demonstrated professionalism, a strong willingness to learn, problem-solving abilities, and a commitment to helping others.

Cooper provided frontline technology support for both students and teachers, assisting with a variety of technical issues. He helped troubleshoot iPad problems, including file access issues and network connectivity concerns, and successfully resolved device configuration challenges, such as restoring an iPad that had unexpectedly switched to another language. His ability to remain patient while diagnosing problems allowed him to provide effective solutions and positive customer service experiences.

In addition to technical troubleshooting, Cooper assisted with large-scale technology operations. He helped relocate and organise device storage lockers between school campuses, distribute iPads to teachers based on grade-level needs, and support inventory preparation efforts. These responsibilities required attention to detail, organisation, and the ability to work independently while ensuring devices and equipment were accounted for and properly assigned.

I highly recommend Cooper Trahan for future employment opportunities in Information Technology and technical support roles. Please feel free to contact me if I can provide any additional information regarding his performance and contributions.

Sincerely,

Brian Carter
Technology Support Supervisor
